Better Together

Seamlessly integrate MiaRec's Voice Analytics, Quality Management, Screen Recording, and Advanced Reporting tools for a unified solution.

Five9 VoiceStream

F9 Cloud Platform (GCP)

HOW IT WORKS

The MiaRec solutions platform leverages Five9 VoiceStream through a SIP stream connection. MiaRec establishes a SIP Protocol with a SIP stream for the agent & a separate SIP stream for the caller. CTI events are mapped to real-time audio streams using domain and call ID present in both SIP headers and call event metadata.

BENEFITS

Compliance & Security

Secure your data and mitigate risk with automatic data redaction, 256-bit encryption, audit trail, IP whitelisting, file watermarking and more.

Boost VOC Metrics

Improve Key VOC metrics including regardless how you measure success by (NPS, CSAT, CLV, or other metrics)

Gain Visibility

Gain a 360 degree view of your call center to get ahead of disputes, reverse churn, and seize emerging business opportunities.

Bespoke Intelligence

Drive transformation and accomplish key initiatives by tracking custom keywords to gather competitive intelligence and customer insights.

24-Hour Deployment

Unlimited Scalability
